

The 6th Neutron and Muon School

12-16 December 2022

hybrid (lecture: online & on-site, hands-on: on-site)

J-PARC MLF & JRR-3 (Tokai, Ibaraki, Japan)

The School provides lectures and practical training for newcomers to neutron and muon beam research from across the fields of physics, chemistry, biology, materials science and more. The lectures cover most of the basic neutron and muon methodologies applied to material research. In the practical hands-on training, participants will experience actual experiments and data analyses on neutron/muon instruments at J-PARC MLF or JRR-3.
